

Cannabis research, support, and education

Founded in 2013, Realm of Caring (RoC) is an independent 501c3 non-profit organization known as the charity of choice for the cannabis industry. They serve anyone in need of more information about cannabinoid therapies. Through revolutionary research, innovative education, and empowering global community connections, RoC seeks to facilitate and encourage the mainstream acceptance of transformative, plant-powered therapies to benefit individuals and families and serve healthcare providers as well as the hemp and cannabis industries.

Since becoming a formal non-profit in 2013, RoC has cherished a vision that has remained unchanged: the belief that the quality of life matters.

What does Realm of Caring provide?

Free one-on-one dosing guidance to individuals worldwide.

Quality, legitimate research that is freely available to the everyday consumer.

Cannabis education to drive advocacy efforts, critical for industry survival.
